

BEECHER'S FOUNDATION

HOW TO GUIDE

A quick teacher's guide to taking your class through our virtual Food Detective Workshop!

ADMINISTER THE PRE SURVEY

Send students the link to the pre-survey, along with your classroom code. Once all students have navigated to the survey, read the questions aloud while they independently select their answers.

TAKE IT FOR A TEST SPIN!

Before your students start the course, we recommend taking a look at the e-learning site yourself so that you can anticipate questions and decide how you'd like to break the curriculum up for your students.

MAKE SURE ALL STUDENTS CAN ACCESS THE COURSE

We recommend starting the introduction module of the workshop together - show students the menu page, explain how to navigate around, and review the timeline for how you'd like them to complete their learning.

STUDENTS COMPLETE THE COURSE ASYNCHRONOUSLY

After the intro, there are five learning modules (or "investigations." The entire course takes about 60 minutes to complete. You may choose to break the workshop up over the course of one week or have students complete it in one sitting.

WRAP UP: POST SURVEY & FEEDBACK

At the end of the course, students will be directed to take a post-survey. Ideally, you will administer the post-survey in the same way you administered the pre-survey to ensure 100% completion. We will reach out for any additional feedback once we receive your students' post surveys.
